

S17 Activities around the JWST - Extragalactic Deep Legacy Fields

Title: The MIRI High-z GTO program

Author: Thibaud Moutard (on behalf of the MIRI High-z team)

Abstract: I will present the MIRI High-z program, conducted over the HUDF and several other well-observed, ultra-deep fields of the sky, as part of the JWST Mid-InfraRed Instrument (MIRI) Guaranteed Time Observations (GTO).
